Multiple Farmer Advocate Groups Receive Donations from Geronimo Energy

Geronimo Energy, a renewable energy developer named the 4th largest U.S. wind energy developer by Bloomberg New Energy Finance's report, "H2 2013 North America Wind Market Outlook", recently made a \$5,000 donation to Farm Rescue, multiple donations totaling over \$750 to Future Farmers of America, and a \$1,250 donation to the National Young Farmers Coalition. These donations are part of an historical and on-going commitment that Geronimo has made to continually support and advocate for farmers and ranchers.

"Our deep roots in agriculture and our respect for farming practices are the backbone of our company," Noel P. Rahn, founder and chairman of Geronimo Energy states. "As advocates for our projects' landowner and farmers, we work hard for the American farming community – and we are excited and proud to support organizations that possess the same core values."

"Geronimo Energy consistently provides strong support for helping farm families and rural communities as a sponsor of Farm Rescue," Bill Gross, founder and president of Farm Rescue states. "They have a proven track record of developing clean American power while maintaining farmer friendly practices in their business decisions." Farm Rescue is a non-profit organization that plants, harvests and provides assistance to farm families that have experienced a major injury, illness or natural disaster. www.farmrescue.org

"Geronimo Energy's support of FFA and agricultural education through the Minnesota FFA Foundation is an important partnership as it allows us to offer quality programs for young people to develop leadership skills through agricultural education," states Val Aarsvold, Executive Director, Minnesota FFA Foundation. "This investment in the 10,000 plus FFA members ensures leaders for agriculture and local communities." Future Farmers of America (FFA) is a non-profit organization that makes a positive difference in the lives of students by developing their potential for premier leadership, personal growth and career success through agricultural education. www.ffa.org

"National Young Farmers Coalition is excited to accept this donation from Geronimo Energy on behalf of our work with young and sustainable farmers," says Emily Oakley, Interim Director for National Young Farmers Coalition. "These funds will help support our programs in policy, network building, and technical support as we advocate for the success of America's next generation of farmers."

The National Young Farmers Coalition (NYFC) is a non-profit organization that supports practices and policies that will sustain young, independent and prosperous farmers now and in the future. NYFC represents, mobilizes, and engages young farmers to ensure their success. www.youngfarmers.org

About Geronimo Energy

Geronimo Energy is a utility-scale wind and solar energy developer based in Edina, Minnesota. Geronimo has developed three active wind farms in Minnesota, as well as several solar projects, and has a development pipeline of wind and solar projects in various stages of development throughout the United States. In 2013 alone, Geronimo signed over 1,300 megawatts of projects under Power Purchase Agreements (PPA). Geronimo has a strategic partnership with Enel Green Power North America, giving it the credibility and capital strength necessary to deliver on projects for customers and communities. www.geronimoenergy.com
